### **DETAILED ACTION**

1. This communication is in response to the BPAI decision made on 6/28/2007.

After thorough search and examination of the present application and in light of the prior art made of record, claims 1-33 are allowed.

### ***Reason for Allowance***

2. The prior art made of record does not teach or fairly suggest the combination of elements, as recited in independent claims 1, 4, 7, 11, 14, 17, 21, 24, 27, 31, and 32. More specifically, the prior art of records does not specifically suggest "an extracting controller for extracting common key image feature values for common key image features that are common to the plurality of key images, and a calculating controller for comparing the common key image feature values, extracted by the extracting controller, with the respective feature values of the plurality of database images to thereby sequentially calculate similarities between each of the common key image feature values and respective ones of the database image feature values for each of the plurality of database images" in combination with all the other limitations in the claims.

These features together with other limitations of the independent claims are novel and non-obvious over the prior art of record. The dependent claims 2-3, 5-6, 8-10, 12-13, 15-16, 18-20, 22-23, 25-26, 28-30, and 33 being definite, enabled by the specification, and further limiting to the independent claims, are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
